

Tung Wah Group of Hospitals Wong Tai Sin Hospital Chest Services

Doctor's Ward Round

TWGHs Wong Tai Sin Hospital

The hospital is located at 124 Shatin Pass Road, Kowloon; which is about a 10-15 minute walk from Wong Tai Sin MTR Station.

Department of TB and Chest

The Department now has 111 in-patient beds, providing service to inhabitants of Kowloon, and Hong Kong. Wong Tai Sin Hospital was formerly named Wong Tai Sin Infirmary when the Department was established in 1965.

Service Scope

In-patient Services include that for Tuberculosis, Chronic Obstructive Pulmonary Disease (COPD), Pneumonia, Lung Cancer, Sleep Apnoea, and Undiagnosed Respiratory Conditions that require further investigation etc. Intensive care equipment, such as mechanical ventilator and monitoring device are also available to serve chronic critically ill patients. Since 2015, Chronic Ventilator Beds have been designated by HA to serve medical in-patients from the Kowloon and NT clusters. The Out-patient Clinics of the Department are located at the Our Lady of Maryknoll Hospital. The Department abides the principle of united medical and nursing care; and upholds the spirit of holistic community care in serving our patients.
